

# NEXT BOND®

A NEKOOSA BRAND

## The Future of Long-Term, Outdoor Durable Pressure Sensitive Specialty Print Media

Nekoosa's innovative NextBond® durable adhesive is a **robust, cost-effective** and **eco-friendly** alternative to traditional solvent-based adhesives for long-term print applications. This groundbreaking adhesive technology ensures **top performance** without compromising quality. NextBond® durable adhesive **won't shrink** and maintains exceptional **adhesion strength** even when exposed to challenging outdoor environmental and chemical conditions. We've streamlined the production process by curing the adhesive inline with UV lamps and **removing all hazardous solvent waste and harmful VOCs**. These added benefits make NextBond® UV-cured adhesive the premier choice for **durable, long-term printed graphics, decals, and signage**, surpassing traditional solvent adhesives.

### Forward-Thinking Innovation

Nekoosa's pioneering NextBond® UV-cured, durable adhesive meets all critical needs for long-term outdoor print applications like displays, decals and signage.

### Price-Competitive Technology

NextBond® UV-cured, durable adhesive offers solvent-based performance without the associated price.

### Tough Outdoor Durability

Performance is equal to or better than solvent-based adhesives.

- Strong NextBond® UV-cured adhesive bonds can last up to 10 years
- Heat and aging resistance, remarkable longevity
- Non-shrinking, excellent dimensional stability
- Non-yellowing, exceptional optical clarity and UV stability
- Non-water whitening, soapy water or dry installation
- Resilient under tough environmental conditions such as humidity, UV radiation, sunlight, moisture and chemicals

### Sustainable Design

- Solvent-free solution – No hazardous waste
- CO<sub>2</sub> emissions cut by over 50% versus solvent adhesives
- Optimized material usage with 100% solids
- Reduced energy usage, no dryers required for manufacturing

### Health and Safety

- No VOCs
- Environmentally and socially responsible
- OSHA, EPA, and CARB Compliant
- Non-flammable
- Non-toxic

### PREMIUM VINYL

*Long-Term Outdoor Graphics | OEM Graphics | Transit Graphics*  
 Premium vinyl for long-term signage that requires superior features including our robust new adhesive system, liners, and finishes that extends outdoor durability to 5 years. Excellent for indoor and outdoor signage, decals, nameplates, P.O.P. signage, transit graphics, fleet markings, bumper stickers, and more. Options available with a layflat air-egress liner for an easy, bubble-free application.

### OVERLAMINATES

*Long-Term Graphics | Point-of-Purchase Displays | Outdoor Graphics*  
 Optimized with our NextBond® robust UV adhesive system to provide durability up to 5 years in critical long-term outdoor applications where environmental factors, moisture and abrasion are present. Backed with a premium clear polyester release liner that reduces orange peel, eliminates silvering, and provides even coverage during application. Available in gloss, luster, matte, and optically clear finishes.

### MOUNTING FILMS

*Window Graphics | Posters | Decals*  
 Permanent or removable optically clear polyester mounting film used to easily convert non-adhesive backed films to pressure sensitive materials with 3 years of outdoor durability.

= PVC-Free
